

# Haywards Harebell

(aka Prinny)

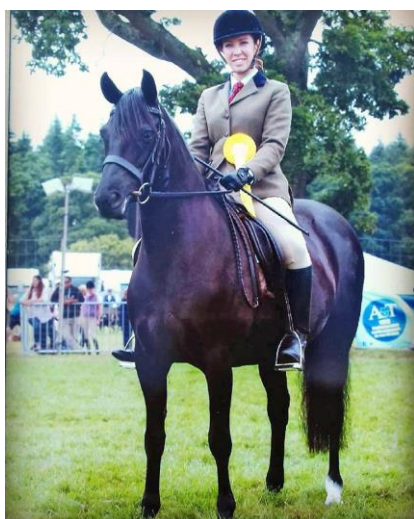

## by Roxie Thomas

I bought Haywards Harebell as a yearling (Longcopse Elton x Trenely Tinkerbell), my first ever pony. She is now 9 and is a true allrounder and my pony of a lifetime. she has excelled in everything I have asked of her. She is just over 13hh. We have hunted with the NF hounds, before moving to West Wales where we now hunt every week with the Vale of Clettwr, where she holds her own on the steep mountains of west wales and jumps like a stag. She has competed to elementary level dressage, and county level WHP courses.

Last year she bred me the most wonderful foal by Sabinas Gold Sovereign, who I am hoping will follow in both her parents footsteps and become a great M&M WHP.

This summer she was dragged out of the field 3 weeks before the New Forest Show as I had to swap entries last minute as my Section D the New Forest Show.

She also enjoyed carrying me in my wedding dress at my wedding this Spring!

Prinny really is a fantastic representation of what good all-rounders New Forest ponies are, their versatility as a breed holds no boundaries and I wouldn't change her for any of the big flashy hunters I hunt with.

Last week out hunting, the huntsman was suddenly in need of a horse. Wanting to help out I offered him Prinny telling him he might need his roller skates! he jumped straight on and hunted hounds for the last couple of hours of the day. As you can see from the photos she was in her element and gave the huntman a confident ride, and it was the proudest moment since owning her.
