

News from the Netherlands...

Weran van de Eenhoorn has completed 21 years of Endurance Riding ... who did his first recorded ride in 1995!

This 28-year old New Forest pony introduced Marly's grand-daughter into the world of Endurance...9 year old Raeza couldn't have wished for a better teacher and takes great care of her pony!

Weran has been at the Eenhoorn Stud since he was a few hours old...he was an orphan foal and was adopted by **Marly van Ditzhuyzen's** halflinger mare.

We are so incredibly proud of this wonderful pony...and are sure that the riders he's had over the years will agree with us when we say that he is more than incredibly special! He did many endurance rides in his youth...up to 90kms!
