

M54/086 Rowdown Black Velvet 2012

(Lovelyhill Hendrix / Maggie May IV)

Bred by Michael Lovell

Just can't believe how much we are all enjoying our New Forest pony...bought at the end of the summer from Sarah Becheley who had nurtured her from a 6 month old foal, but through sad circumstances had to part with her.

Hunting photo is © Mark Webb

She is such a versatile young pony with a good attitude to work and takes anything on wholeheartedly...she has been ridden in lessons by my 11 year old son, hunted by my daughter, drifted and hunted by Mark Buckland, hacked by my aunt and jumped and xc by showing raw talent and natural ability over poles. She is now training for the point to point and is such a careful pony over the rough ground. She is very brave out hunting and negotiates ditches and logs accurately.

We have had ponies from all over the country and Ireland to ride on jump hunt etc and out of all the ponies over the last couple of years Rowdown Black Velvet has surpassed the lot and she came from half an hour away!

We love Velvet and really appreciate the time and effort that goes into carefully breeding good quality New Forest ponies that are so versatile and adaptable to all disciplines. We plan to do it all with Velvet...Cricklands in April jumping and dressage and hunter trials, might get to hunt her in Wales this season and with the Blood Hounds in February.

The easiest youngster we have had yet and she just loves the attention!
