

Log in to Grass Roots with your number and password which you can obtain from NFPBCS if you have lost it

If you own ponies they will then show up but if several members of your family register in their own names you may find your list is smaller than expected and the other ponies will need the family member to log in to find their ponies

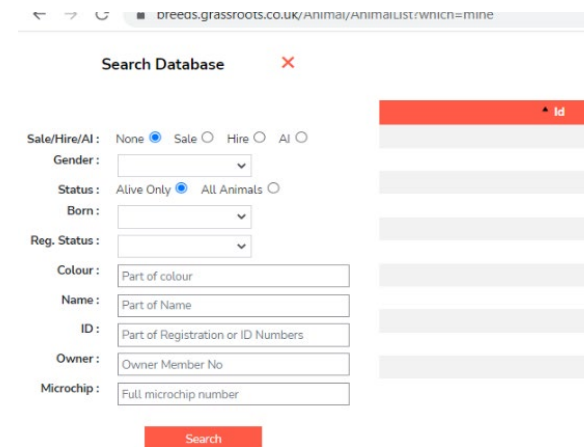

We are working to find a solution to this

The screenshot shows a web browser window with the URL breeds.grassroots.co.uk/Animal/AnimalList?which=mine. The page title is "New Forest Pony". Below the title, there is a search icon and a filter dropdown. The main content is a table with 8 entries, showing columns for Reg No., Animal Name, Id, Gender, Owner, Breeder, Status, DoB, and Colour.

If you simply wish to search for a pony you click on the magnifying glass in the top left which brings up a box for you to put part of ponies name Remember that some older prefixes are still two words but new ones are one word ie Mallards Wood or Bullhill If you are looking for a pony that may have died click on the circle for all animals Some names are hyphenated so you may need to try alternatives. Often ponies mentioned on facebook are not spelt correctly or are missing part of their name
